REPORT OF LIBRARY TRUSTEES

The trustees thank those who have contributed books and magazines to the library. They appreciate the continued interest of the Junior and Senior Women's Clubs. Mrs. Earl Spear has posted and kept up-to-date the addresses of our servicemen.

The librarian, and those who contributed and helped with the collection of back issues of Town Reports, are to be congratulated for this fine service. The trustees feel the bound reports are a valuable addition to our shelves and trust that many people will enjoy them.

The Bookmobile from the State Library Extension Service has visited the library three times during the past year and will continue to call, four time a year, in the future.

REPORT OF SCHOOL PLANNING COMMITTEE

At the first meeting of this Committee, on April 23rd, it was organized with Wilbur Drew as chairman and Mrs. Barbara Luther as secretary.

After a general discussion of the various angles of the situation it was decided, that inasmuch as we were instructed to investigate the consolidation of certain grades with other towns, that we should first acquire more complete information of that subject.

Through the courtesy of Supt. Gilmore a meeting was arranged for May 20th at the Hampton Center School. On that date this committee met with like committees from Hampton and Hampton Falls. Dr. Buley, Commissioner of Education of the State, was present and explained the procedure and mechanics of establishing a School District. We learned at that meeting that consolidation of the grades which we would be most interested in, namely the seventh and eighth, would be prohibited by the Statutes as they now stand.

A later contact with the committees of Hampton and Hampton Falls brought out the fact that neither committee was interested in consolidation, and did not intend to consider the matter further. In view of this fact, there seemed no object in this committee making any further study of consolidation at the present time.

An analysis of the enrollment situation shows, that while we are able to get along with six teachers by splitting and combining grades from the 5th up, this is only possible because there are two small grades, this year's 6th and 7th having 14 pupils each.

By September, 1953, with only the pupils now registered, all grades up to, and including the 6th will have

from 24 to 27 pupils, each one therefore requiring a teacher full time. For the next three years, including this year, the 7th and 8th grades may be able to be combined under one teacher due to the small enrollments in the grades that will be entering that room. As it appears now we will have need of seven teachers starting September 1953, by the fall of 1955 we will require eight. This will only be possible with the present enrollment, any substantial increase will entirely change the picture.

In the next five years, counting only those now enrolled, 96 will graduate, while a survey covering about 90 percent of the town shows that 93 will become of school age during the same period. From 1942 to 1947 the school population increased by about 23 percent and from 1947 to 1952 there was an increase of about 38 percent. If we allow, and it seems fair to do so with the prospects of the air base, an increase of 25 percent over the next five years, we will have an enrollment of about 210, and because of the irregularity of the size of the classes, we will, with little doubt, need eight teachers, which will require two more rooms. Any increase in enrollment to 240 or more will indicate the need of rooms beyond the capacity of the present building, even though the two rooms are added in the basement.

On the basis of these figures this committee is of the opinion that the unfinished space in the basement of the present building should be completed, which will provide for the immediate needs. We also recommend that a committee be appointed at the next annual meeting, this committee to be provided with funds and authority to secure plans, prices, etc., for an addition to the present school building, which the percentages of increase indicate will be needed in three years.

WILBUR S. DREW, Chairman.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of North Hampton:

I herewith submit to you my twenty-third report as Superintendent of your schools.

The schools of North Hampton began September 3, 1952 with an enrollment of 163. The number of pupils as of February 2, 1953 is 170. This compares with 163 of the previous year and 145 of the year 1950-51. The average teacher-pupil load is 28.3. The recommended figure is 25 pupils per teacher with each teacher in charge of one grade. Two of our rooms now house two grades each. Because of the large enrollment in grades five and six, it became necessary to divide grade five. Since an additional teacher will be needed next year, it is recommended that the school be organized with grades one through six in single rooms.

Fifty-nine pupils are registered in Hampton High School as of September 1952 with one pupil attending Portsmouth High. North Hampton is therefore educating 230 pupils at the present time.

The federal government by the passage of Public Law 874 has recognized its obligation for assisting local districts in the cost of educating children of its employees. The district received aid during the previous year but legal interpretation in Washington declared that the naval base was situated wholly in Maine. Since Public Law 874 declared that aid was restricted to districts in the state where federal activities were located, no New Hampshire school district was eligible — unless the family of the pupil actually lived on federal property. Our representatives and senators in Washington are to intro-

duce a bill in Congress to correct this injustice If this new bill shall become a law, North Hampton will again be entitled to this aid. At the present time it is not so entitled.

I believe North Hampton has an outstanding teaching staff. Mr. Poland has brought to the school a spirit of cooperative effort which has resulted in an efficiently administered school. He has enriched the curriculum by added use of visual aids and by definite time allotted to physical education. He has freely given of his own time in order that our children might have the benefits obtained from athletic teams. The staff as a whole is working thoughtfully and intelligently for the welfare of the children of North Hampton.

Supervisory Union 21 at its meeting held last November, authorized funds for further purchases of film strips. By this provision the Union will have eleven groups of films to be used as teaching aids for Arithmetic, Reading, Geography, Health and History. Included, also, are films on Courtesy and safety as well as fables for the younger children.

As an aid toward more efficient use of these, Supervisory Union 21 is offering a course for its teachers in Visual Aids. The course starts February 16, 1953 in the Hampton Centre School. This work is under the direction of the Harvard-Boston University Extension division and carries full collegiate credit. It is the same course as offered at the University and it is brought here as a convenience to these teachers wishing to secure the most approved methods of using visual auditory aids.

The Motor Vehicle Department of the state has offered to spend several days in this Union bringing to the pupils of our schools the rules of safety as adopted by the department. This section of New Hampshire has heavily travelled roads. It is important that children

know the rules of the road, whether they are walking, riding bicycles or driving automobiles. I am particularly pleased that the Motor Vehicle department is offering us this service.

The North Hampton School Board has definitely increased its service to the pupils by employing a teacher for remedial work. It is the belief of educators, after numerous investigations, that ten or fifteen per cent of the pupils in school should have the opporunity of remedial work. While at present, the teacher of this department is with us only during the morning sessions, I believe results will prove the advantage of using her services full time. Some pupils need the extra incentive of individual attention which may be given in a small group. Some pupils need time for extra drill. To some pupils, certain subjects are easily mastered while other subjects require added motivation. It may be illness or absence or change of school which present problems. In some cases the pupil misses a certain process in class. With a remedial teacher available, this point is cleared and thereafter the pupil progresses with his class. All in all such a teacher is valuable, because she brings encouragement to a troubled pupil, allows the grade teacher to devote her time to the pupils who have had no interruptions in class progress and clears away difficulties before they become serious.

The lunch program continues a valuable activity of the district. The meals are complete and attractive. The records are accurately kept. By moving the lunch facilities to the lower floor, a larger and more efficient kitchen was received. This move also freed the gymnasium for use during the noon hour. Federal commodities have been received regularly. These commodities, together with the federal subsidy, allow school to service meals well below cost. The worth of a hot lunch program is well proven.

North Hampton has an active Parent-Teacher Association. Like its State and National Organization, it is interested in the welfare of the schools. Particularly at this time when there seems to be a vicious attack upon the public schools, the great power of "its membership is needed." As the Parent-Teacher Association is strong by so much, will the portion of the schools be strengthened.

North Hampton is facing a problem of housing for a larger enrollment. Different plans have been suggested. Each of these has been considered carefully by the School Board and will be presented to the people for their decision. There is an immediate necessity for one more room. Aside from this, plans for future expansion should be considered. Both of these problems will be considered in the district meeting.

Your school board has spent a great deal of time considering means of improving our service to the children. The problems of a board are complex. With the present group, the parents may be certain that our schools are alert to the most approved services. For their work, I am most grateful. The teachers have been uniformly cooperative. In their hand, our pupils are well cared for.

Respectfully submitted,

ROY W. GILLMORE,

Superintendent of Schools.
